

Hi Coral

Judith has extracted a list of my Norfolk Island fungal collections from the herbarium database and I have attached a list of the collections that have been identified at least to genus. That will save you the effort of having to compile a list. The names in red are myxomycetes (or slime moulds) rather than fungi and I have also added a some Lepiotas that somehow missed getting databased. The list is in order of collection number to make it easier to match to a slide number. If you have a slide that doesn't match to the list most likely means the collection is not yet identified. Let me know any such cases and I'll see if I can identify the specimen.

In 94 I visited the island mainly to photograph mosses for the monograph about the island's mosses. In 95 I visited under a fungal contract and the 97 trip was a private detour on the way back from New Zealand. I suspect most, probably all, of my fungal photos you have would be from the 95 trip.

Over the past couple of days I've found and looked through my Norfolk Island stuff, largely background material relating to the 95 contract but with a couple of very useful later items. I think there's the makings of a very nice web site that could present the history of fungal work relating to the island as well as a survey of what species are known from the island. Still, that would be some way down the track.

Thank you for the very kind offer of accommodation, but I will have to pass on that.

Cheers,  
Heino Lepp

### The 1994 visit

- 1019 Copelandia
- 1020 Gymnopilus
- 1021 Lentinus strigosus
- 1022 Hohenbuehelia
- 1023 Dacryopinax spathularia
- 1025 Crepidotus
- 1026 Lepiota
- 1027 Hypholoma aurantiaca
- 1028 Mycena
- 1029 Stereum ostrea
- 1030 Filoboletus
- 1035 Calocera
- 1038 Nectria macrostoma
- 1043 Campanella
- 1044 Filoboletus
- 1045 Coprinus
- 1046 Laccaria
- 1055 Gyrodontium sacchari
- 1057 Filoboletus
- 1058 Crepidotus
- 1061 Geoglossum umbratile
- 1063 Lachnum
- 1064 Xylaria
- 1065 Xylaria
- 1066 Favolaschia calocera
- 1067 Secotium fragariosum
- 1069 Dacryopinax spathularia
- 1070 Crepidotus
